

Mahendra Bhamare

Nashik, India | 9309978119 | mahendrabhamare2002@gmail.com

Aspiring Data Analyst with expertise in data visualization, wrangling, statistical analysis, and predictive modeling. Proficient in SQL, Python, Power BI and Excel, with hands-on experience in ETL, automation, and dashboarding. Strong problem-solving skills, eager to apply analytical expertise in a data-driven environment

EDUCATION

Masters in Computer Application <i>Dr Moonje Institute of Management And Computer Studies ,Nashik</i>	2024 - 2026
Bachelor of Science in Computer Science <i>KTHM College ,Nashik</i>	2020 - 2023

TECHNICAL SKILLS

- | | | | |
|--------------------------|--------------------|---|----------------------|
| • Power BI Desktop | • SQL | • Advance Excel | • Data Modelling |
| • Power BI Service | • MySQL | • Power Pivot | • Data Visualization |
| • Power Query (M- Query) | • SQL Server(SSMS) | • VBA and Macro | • Data Cleaning |
| • DAX | • PostgreSQL | • Python(Pandas,NumPy, Matplotlib, Seaborn) | • Data Storytelling |

WORK EXPERIENCE

Data Analyst Intern ShruteekaTech Pvt Ltd,Pune	July 2025 – Jan 2026
- Developed and maintained Power BI dashboards to track key business KPIs and performance metrics. - Assisted in designing fact–dimension (star schema) data models to support efficient reporting. - Wrote and optimized SQL queries in SQL Server and MySQL using joins, subqueries, CTEs, and window functions. - Performed ETL operations to extract, transform, and load data using Power Query, SQL, and Python (Pandas). - Automated recurring reports using Advanced Excel, Power Pivot, and VBA macros to reduce manual effort. - Conducted data cleaning, validation, and reconciliation to ensure data accuracy. - Collaborated with senior analysts and stakeholders to understand reporting requirements and deliver insights. - Supported Power BI performance optimization and managed scheduled data refreshes. - Documented dashboards, data models, and ETL workflows for knowledge sharing.	

PROJECTS

Sales & Customer Performance Analytics (E-Commerce)

Tools: SQL, Power BI, Power Query, Excel, DAX

- Built end-to-end sales dashboards to analyze revenue, growth trends, and customer performance.
- Used SQL (joins, CTEs, window functions) for data extraction and transformation.
- Designed star schema data models and created Power BI KPIs such as Total Sales, MoM/YoY Growth, and Top Customers.

Financial Transactions & Risk Analysis (Financial Services)

Tools: SQL, Power BI, Power Query, Excel

- Analyzed transaction data to identify volume trends and potential risk patterns.
- Implemented SQL-based business logic to detect high-risk transactions using thresholds and frequency analysis.
- Developed Power BI dashboards to monitor transaction KPIs and risk indicators.

Inventory & Supply Chain Performance Analytics (Manufacturing)

Tools: SQL, Power BI, Excel, Power Query, VBA

- Created inventory analytics reports to track stock levels, aging, and turnover.
- Processed and validated inventory data using SQL and Power Query.
- Automated inventory reports using Excel and VBA to reduce manual effort.
